

captured by Concord: sounds for connoisseurs

CONCORD

CAPTURE IMPORTANT MOMENTS IN SOUND. TREASURE THEM ALWAYS WITH A CONCORD QUALITY TAPE RECORDER.

From baby talk to wedding vows, life's pleasurable moments can be captured fully with the incomparable fidelity of a Concord Tape Recorder. Years from now, you can enjoy those once-in-a-lifetime experiences again.

Concord Tape Recorders are great for study too, almost like having a teacher in the house. (In fact, many schools and colleges use Concord.) Just relax, listen and learn.

At work, a Concord Tape Recorder is your "extra secretary", takes dictation; records interviews, conferences, important conversations; helps you do more work faster.

Create your own custom musical library with the help of Concord's exclusive Trans-A-Track features. Record both monaural and stereo. One reel of tape contains as much as 40 records, yet costs far less. And with any Concord Stereo Tape Recorder, you can play four-track pre-recorded tapes.

ALL TAPE RECORDERS FULLY WARRANTED

TO ASSURE CUSTOMER SATISFACTION, EVERY CONCORD TAPE RECORDER IS SHIPPED WITH A FULL ONE YEAR WRITTEN WARRANTY.

CONCORD  **ELECTRONICS CORPORATION** 809 NORTH CAHUENGA BOULEVARD, LOS ANGELES 38, CALIFORNIA

THE SIGNATURE OF QUALITY ■ *Tape Recorders/Industrial Sound Equipment/Dictation Systems/Communications Devices/Closed Circuit Television*

884

priced under \$450.

Transistorized 4-Track Stereo Record Playback Tape Recorder. Concord's proudest achievement. There is no finer professional portable stereo tape recorder on the market. No other recorder has all the Concord 884 quality features and performance—regardless of cost.

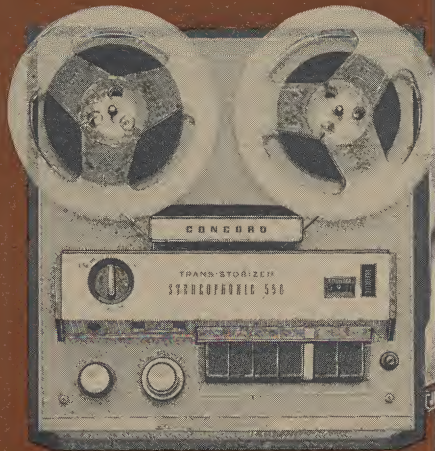

4 transistorized preamplifiers, 2 for record and 2 for playback ■ A/B switch for comparing source versus tape when monitoring ■ Built-in Sound-on-Sound ■ 3 heads: separate erase, playback and record ■ 3 speeds: $7\frac{1}{2}$ ips, $3\frac{3}{4}$ ips, $1\frac{7}{8}$ ips ■ Full push-button operation ■ Master tone control ■ Push-pull bias oscillator circuit for best SN ratio and lowest distortion ■ Independent record and playback level control for monitoring volume ■ Stereo headphones output jack ■ Illuminated VU meters ■ Automatic record equalization changing ■ Automatic reel-end shutoff ■ Automatic pressure roller disengagement ■ 15 watt stereo

amplifier ■ 2 extended range speakers: 5" x 7" and 7" diameter ■ Continuous record level setting without tape moving ■ Optimum speaker placement for true stereo separation ■ 2 professional dynamic microphones.
■ **Size & Weight:** 15½" (W) x 11½" (H) x 17" (D), 43 lbs.

Accessories: 2 professional type, high sensitivity, dynamic microphones (specially balanced for stereophonic recording), with stands ■ 2 recording patchcords ■ 1 speaker extension patchcord for right channel extension speaker
■ 1 empty 7" reel ■ 1 roll splicing tape.

S-A-TRACK

Transistorized Stereo Tape Recorder. A brilliant example of Concord leadership in quality tape recorder engineering. Superior features, finest sound quality, easy operation and transistorized reliability.

Automatic reel-end shutoff ■ records and plays stereo ■ transistorized preamplifiers ■ all pushbutton operation ■ sound-on-sound operation ■ 3 speeds ■ greatest tape economy ■ lightweight, compact: 34 lbs. ■ 2 professional quality dynamic microphones ■ rugged, reliable tape transport ■ 2 VU meters ■ tone control ■ automatic record equalization.

Tape Speeds: 3-speeds, $7\frac{1}{2}$, $3\frac{3}{4}$, $1\frac{7}{8}$ IPS ■ Heads: Mu-metal shielded laminated professional type ■ Reel Size: 7" maximum ■ Frequency Response: $7\frac{1}{2}$ IPS ... 30-20,000 cps, $3\frac{3}{4}$ IPS ... 30-15,000 cps, $1\frac{7}{8}$ IPS ... 50-8,000 cps ■

Monitoring: Through built-in speaker(s) ■ Tape Counter: Digital Type Counter

■ Built-in Speakers: One—4" x 6" oval, P.M. Dynamic, One— $6\frac{1}{4}$ " P.M. Dynamic (in case cover) ■ Power Rating: 65 watts total, 60 cycles, 110-120-volts

■ Size & Weight: $9\frac{3}{8}$ " (h) x $13\frac{3}{8}$ " (d) x 14" (l), $34\frac{1}{2}$ lbs.

Concord's surprise stereo recorder value. Records and plays stereo with professional quality found only in more expensive recorders.

■ Has its own amplifiers and stereo-operated speakers; also plays through any hi-fi music system

■ Transistorized preamplifiers

■ Sound-with-sound operation and exclusive Trans-A-Track

■ Multiplex ready

■ Professional quality dynamic microphones (2)

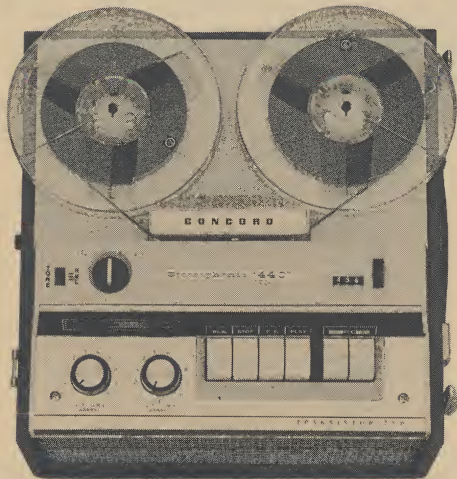

■ Records up to 24 hours on one reel of 3600-ft. tape

■ All pushbutton operation

■ Master tone control switch

440

priced under \$240.

SPECIFICATIONS: Tape Speeds: 3 speeds: $7\frac{1}{2}$, $3\frac{3}{4}$, $1\frac{7}{8}$ ■ Reel Size: 7" maximum ■ Frequency Responses: $7\frac{1}{2} \pm 2$ db...50-15,000; $3\frac{3}{4} \pm 2$ db...50-10,000; $1\frac{7}{8} \pm 3$ db...60-6,000 ■ Level Indicators: Operate in record and playback modes ■ Monitoring: Through monitoring headphones from line output position ■ Tape Counter: Digital type counter ■ Speakers: One—4" x 6" oval, P.M. Dynamic for channel one. One—6 $\frac{1}{4}$ " P.M. Dynamic for channel two extension speaker (in case cover) ■ Amplifier: 10 watt stereo power amplifier ■ Power Rating: 65 watts total, 60 cycles, 110-120 volts AC only ■ Size & Weight: 9 $\frac{3}{8}$ " (h) x 14" (d) x 13 $\frac{9}{16}$ " (l), 34 lbs.

LITHO IN U.S.A. 1011:1/4

220

priced under \$150.

Transistorized 3-Speed Tape Recorder.

World's most advanced hi-fi, dual-track, pushbutton tape recorder. Advanced design electronic circuitry and heads ■ incomparable recording and playback fidelity at all 3 speeds ■ pushbutton controls ■ varisync flutter-free drive motor ■ hi-fi dynamic microphone ■ PLUS Magic Eye record level indicator ■ automatic equalization shift ■ automatic pressure roller disengagement ■ cue and edit button ■ tone control ■ setting of controls without tape moving.

Accessories included: dynamic microphone, earphone, 7" take-up reel, radio/TV patch cord. **Optional accessories:** Synctrol for sound movies, remote control, foot control, telephone pick-up, microphone mixer.

Tape Speeds: 3 speeds — $7\frac{1}{2}$, $3\frac{3}{4}$, and $1\frac{7}{8}$ IPS ■ Frequency Response: 40—15,000 cps @ $7\frac{1}{2}$ IPS, 40—10,000 cps @ $3\frac{3}{4}$ IPS, 40—5,000 cps @ $1\frac{7}{8}$ IPS ■ Operation: all pushbutton operation ■ Inputs: 1—microphone 20k ohms unbalanced, 1—radio and phono 1M ohm unbalanced ■ Output Impedance: 3 ohms ■ Built-in Speaker: 6" x 4" permanent dynamic speaker ■ Tape Counter: digital index counter ■ Dimensions and Weight: 12" x 13" x $7\frac{1}{2}$ ", 22 lbs.

priced under \$100.

Tape Speed: $7\frac{1}{2}$ and $3\frac{3}{4}$ IPS,
dual track ■ Reel Size: 3", 5",
7" ■ Wow & Flutter: maximum
.25% @ $7\frac{1}{2}$ IPS ■

Inputs: microphone, auxiliary (2)

■ Outputs: earphone monitor,
ext. speaker ■ Speaker: 10" x

$2\frac{1}{2}$ " PM Dynamic ■ Power

Rating: 50 watts, 120V AC

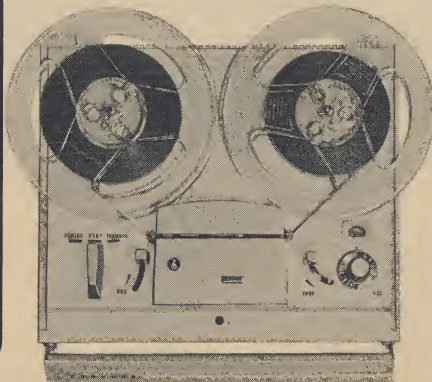

60 cycles ■ Frequency Response:

50-12,000 cps ■ Tube Comple-

ment: 5 tubes ■ Magic Eye:

for easy-to-read recording level ■

■ Weight: 11 lbs.

Compact Tape Recorder. Lightweight portability plus style and quality features unmatched by any other recorder in its price range.

Hi-fi sound ■ small size: $5\frac{1}{8}$ " x $12\frac{1}{8}$ " x $11\frac{5}{8}$ " ■ lightweight: only 11 lbs. ■ distinctive modern styling ■ 2 speeds—actually records up to 6 hours on a single reel of tape ■ Magic Eye record level indicator for assurance of distortion-free recordings ■ auxiliary input—record directly from radio, TV or records ■ accessories included: crystal microphone, crystal earphone, recording patch cord, 7" empty reel, splicing tape.

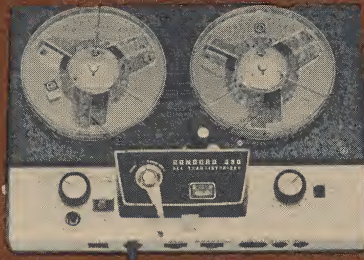

330

priced under \$200.

World's first fully automatic, voice-operated portable tape recorder. Perfect for ... detective work ... portable dictation. Sound starts it! Sound stops it!

Automatic slide projector advance ■ automatic Synctrol for home movies ■ automatic self-threading reel ■ fully transistorized ■ portable battery-operation or AC (optional) operation ■ 2 speeds ■ up to 6 hours playing time on 5" reel ■ tone control ■ remote control microphone ■ VU meter and battery life indicator ■ takes standard D cell batteries (6) ■ earphone ■ external speaker jack.

SPECIFICATIONS: Dimensions: 12" x 8 $\frac{3}{4}$ " x 3 $\frac{3}{4}$ " ■ Weight: 6 lbs. ■ Transistors: 9 transistors, 1 diode ■ Reel Size: Stand-

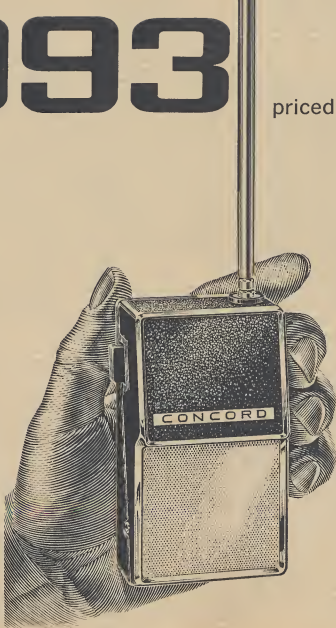

ard 5" reels ■ **Speaker:** 8 ohm, P.M. type, 3 $\frac{5}{8}$ " ■ **Microphone:** Stop/Start remote dynamic type ■ **Speed:** 1 $\frac{7}{8}$, 3 $\frac{3}{4}$ ips ■ **Remote Control:** By switch on microphone. Foot switch optional. Automatic stop or start ■ **Recording Time:** Up to 6 hrs. at 1 $\frac{7}{8}$ ■ **Indicator:** Meter: Recording level and Battery condition indicator ■ **Motor:** 4 Poles, D.C. with special platinum coated governor ■ **Frequency Range:** 50-10,000 cps ■ **Power Source:** 6 "D" size batteries or optional external AC ■ **Battery Life:** Over 10 hours ■ **Accessories:** Stop/start microphone leather pouch, 1 earphone, 1 empty self-threading reel, sensing tape, special slide projector plug ■ **Optional:** AC-3 Adaptor, FT-2 Foot Switch, TP-2 Telephone pick-up.

TG-093

priced under \$60.

Size: 4½" (H) x 2¾" (W) x 1½" (D)
■ Weight: 15 oz. ■ Electronics: 9 Transistors, 1 diode, 2 crystals. Super-heterodyne receiver circuitry
■ Antenna: 50¾" length telescoping antenna closes to 8½" with loading coils ■ Transmitting Range: up to 5 miles depending upon terrain ■ Receiving Range: up to 20 miles depending upon terrain ■ Battery: 9 volt...approximately 70 hour life ■ AC Operation: Continuous with Concord AC-2 adaptor ■ Carrying Case: Top grain cowhide leather case included.

Transistorized 2-Way Radio Transceiver. A high quality electronic communication instrument for industrial, construction, farming, boating, hunting and many other uses. Can be plugged into wall socket with AC Adaptor to use as base of operations. ■ Range: Advanced design circuitry plus exclusive Concord Antenna with built-in loading coil gives 20% greater range, effective from a few blocks in congested areas to as much as 20 miles over water ■ Rugged Design: Die cast metal case is built for rugged use. No License Required: Approved by F.C.C. for citizens' band use ■ Crystal Controlled Transmitter and Receiver: Super-heterodyne receiver, super sensitivity and clarity of sound.
